Techwood Tax Bill Is Passed by House

WASHINGTON, June 1.—The lower house late today gave its final approval to the George bill, already passed by the senate, which is designed to adjust differences between government agencies and the city of Atlanta over collection of the equivalent of taxes on property embraced in the PWA-financed Techwood low-cost housing project now ready for occupancy.

Government officials have held that without such an amendment as that embraced in the George bill of today federal agencies could not pay taxes on the property or the equivalent in municipal service charges.

A few minor differences between the house and senate bills remain to be ironed out in conference before the measure becomes a law.

Supreme Court Concludes Session Following 5-4 Adverse Ruling on Employment Curb Statute.

WASHINGTON, June 1 .- (AP)-The supreme court ruled today in a vigorously worded 5-to-4 decision that New York's 1933 minimum wage law was unconstitutional as applied to women on the ground that it violated 'the right to make contracts."

After thus following up the invalidation of the federally enacted wage and hour provisions under NRA and the Guffey coal control act by holding that the individual states cannot establish minimum wages for women, the high court adjourned until next October. Thus ended one of the most ir portant terms in its history.

HOLLYWOOD, June 1.—This month, being engaged in the somewhat responsible task of filling the most important office in the world, the accredited representatives of the accredited representatives of two great parties will discharge these duties by acting as though, shortly before they were born, their respective mothers had been hor-ribly frightened by an intoxicated tog-dancer.

At Cleveland, if the delegates for Zookus fail to behave like howling dervishes for at least 40 minutes following the mention of his name,

following the mention of his name, they're traitors to a sacred trust. And if the delegates for Gookus don't carry on longer and louder and crazier than the Zookus bunch did, they'll never again dare lift their shamed heads.

The set-up will be different at Philadelphia, the cradle of liberty, although occupied at times by some funny foundlings. There, when the chosen mouthpiece offers a candidate whose second nomination has been certain ever since his first nomination, every patriot on the floor must be thrown by the astounding shock into a happy delirium, lasting until his legs give out, his larynx splits and he can't think of any more hysteria symptoms.

And thus, children, is history made in a great republic.

Mr. Blackwell as been in Atlanta for the past week in connection with the "Century of Coal Burning Progress" exposition at the city auditorium and has given advice and instruction to Atlantans interested in smoke reduction and cutting coal costs.

"Smoke control is not a fad cr hobby, but an undeniable necessity to health and economic management," Mr. Gallaher declared.

"Air pollution from smoke was cut down in Chicago by more than 60 per cent and Atlanta can do the same."

The national convention on smoke prevention will open this morning at the Ansley hotel. James C. Bryan, of St. Louis, will preside and speakers will include Mayor Key, Mr. Gallaher, Jere A. Wells, Willis A. Sutton, Charles M. Farrar and T. F. Abercr. ibie, all of Atlanta. Women attending the convention will meet with Mrs. Gallaher at 8 o'clock this afternoon.

A constitutional amendment to limit all ad valorem taxes—state, county and city—to 15 mills is to be submitted to Georgians next November, Some county officials take the view such a limitation would cripple local governmental services.

Advocates of the proposal say it would encourage greater home and farm ownership in Georgia and would greatly decrease the tax load of property owners.

Tate Wright, of Athens, clerk and attorney of the Clarke County Board of Commissioners, and secretary of the Georgia Association of County Commissioners, will discuss the tax question Friday morning.

This is the Roosevelt-rejected compromise providing for a graduated tax on corporation income, ranging from 151-2 to 18 per cent in addition to a 7 per cent flat tax on undistributed profits; a dividend tax at the normal four per cent income tax rate and an increase in income taxes of 1 per cent in each category above \$6,000. Senator Black and La Follette today submitted a minority report on the bill, demanding taxes on surpluses which would conform more closely to administration wishes. Senator Blac: predicted the bill will eventually include heavier penalties on excess reserved but would on forecast what the senate would do. Senator Hastings, republican, Delaware, said he, too, would file a minority report.

Senator Couzens, republican, Mich., announced a group of republican and conservative democratic secators would oin in a filibuster if the bill ultimate ly worked out in conference with the house should retain in substance the features of the house measure.

As the senate sat until long after dusk, amendments were added to the relief bill so rapidly that clerks could not compute the exact total, but figured it roughly at something in excess of \$2.428,000,000. Included was \$1.425,000,000 for continuing the work program.

relief program.

A long day of heated debate was climaxed by a brief skirmish over an effort led by Senator Vandenberg, republican, Michigan, to return relief to the states, with the government contributing 75 per cent of the cost. It went down under a chorus of democratic noes, 57 to 14.

Senator Minton, democrat, Indians, replied with a defense of the Works Progress Administration program in Indiana, and a charge Hastings' constituents had profited from the World War, and did not protest against an unbalanced budget then. He said most of the public debt is a holdover from the war days.

With the relief bill out of the way, senate leaders were aiming for adjournment a week from tonight. They had virtually abandoned hope of getting through by Saturday night.

Minority Tax Report. In their minority report on the tax bill Senators Black and LaFollete said

the compromise bill would level a "wholly unnecessary and deadly blow" at small corporations and small stockholders.

Their report said the finance committee measure would continue to permit unnecessary retention of corporate profits to as to allow stockholders to avoid payment of income taxes in the high surtax brackets. Through this "simple device," the report said, the government would lose more than \$600,000,000 in 1937.

He added the result of the program can be "definitely" measured for many lines of business.

"Agricultural income has increased."

"Agricultural income has increased 119 per cent for 1935 over 1932," he said in a radio address. "Large gains have been noted in bank deposits and bank clearings: retail sales for April were the largest in six years and the gross revenue of railroads for freight and passenger service has been much larger.

NEW PRIOR TIRE STATION DECLARED MOST BEAUTIFUL IN THE SOUTH

Management Promises
New Kind of Super
De Luxe Service
to Motorists.

A dream of 15 years' duration finally has been realized with the formal opening of the modern new home of the Prior Tire Company. The station, located at Peachtree and Pine Streets, is described by authorities as "the forerunner of a new era in service station design." "Without a doubt the most beautiful building of its kind in this part of the country" and "an effective interpretation of 20th century design combining beauty with utility."

10 Distinct Departments

The new station has 10 distinct service departments, each one in its own spacious compartment. They are: The tire and tube department, accessory department, radio sales and installation, battery sales, recharging and rentals, brake service and installation, wheel aligning featuring latest Bear Wheel Aligning equipment, complete lubrication featuring latest type lubrication guns and correct grade of lubricant for each part of the modern automobile, and a washing and polishing department. The station is equipmed to render a complete one-stop service. The five pumps which can service three lanes of cars at one time are modernistic in motif to conform with the design of the station and automatically record the amount of the purchase both in quantity and dollars and cents.

and correct grade of lubricant for each part of the modern automobile, and a washing and polishing department. The station is equipped to render a complete one-stop service. The five pumps which can service three lanes of cars at one time are modernistic in motif to conform with the design of the station and automatically record the amount of the purchase both in quantity and dollars and cents.

The Prior Tire Company has been an Atlanta institution for more than 15 years. Its telephone number, WAlnut 9876, and its slogans, "Don't Cluss Phone Us" and "We Never Close" are bywords with Atlanta motorists. A new unofficial slogan, "Where Service Is a Science," has been awarded the company by hundreds of satisfied customers. This slogan is based on the fact that all activities are scientifically checked. Pressure charts are consulted before tires are inflated. Each car is lubricated according to Chek-Chart recommendations. Recommendation charts are checked to insure the correct grade of motor oil. Other scientific instruments are also utilized in the procedure of rendering the perfect service.

24-Hour Service

Prior Tire also maintains a fleet of service trucks which are on the job 24 hours every day. This day and night service has proven itself invaluable to motorists and has been greatly instrumental in establishing for the company a reputation of unusual performance. Many a motorist with tire and battery trouble in the late hours of the night has had occasion to bless Prior's 24-hour policy.

Employs Staff of 43 Atlantans

It is an established fact that a business can succeed only in so far as its personnel is capable. The stéady progress of the Prior Tire Company is due largely to its capable, competent, courteous and efficient personnel. Every employe is a conscientious worker desirous of filling each working day with greater service to motorists. Today the company employs 43 people and the finest testimonial in regards to working conditions is the observation that there is practically no labor turnover whatsoever. All of the employes are residents of the city, solid citizens of the community, whose combined buying power is a factor in Atlanta business.

Only Highest Quality Nationally Known Brands Featured

In keeping with its rigid policy of Quality First, the Prior Tire Company features only nationally known merchandise. Hood Tires. Hood Tubes, Polson Puncture-Proof Tubes, Vesta Batteries, Philco Auto Radios, Rusco Brake Linings, Miller Accessories, Woco-Pep regular and Super-Solvenized Motor Fuel, Tiolene 100 per cent Super Pennsylvania Motor Oil and a complete line of Pure Oil fluid lubricants and greases.

There will be plenty of excitement at this well-known corner today—because today Atlanta will celebrate the formal opening of the most amazing superservice station in the Southeast. And what an opening this is going to be! Prior has set the style! Bands will furnish continuous music well into the night. After dark, huge lamps will flood the station in an ocean of light. Smartly dressed attendants will snap to attention as you approach. And everywhere the spirit of jubilee will prevail.

room for everybody. Our wide, well-planned driveways will accommodate three lanes of cars at a time. The driveway and lot will park 200 cars. Bring the whole family and join the party. There'll be lights, music, excitement. AND HERE'S A SPECIAL REASON FOR COMING: With the purchase of five or more gallons of motor fuel on opening day, you will receive ABSO-LUTELY FREE, a carton containing six beautiful 9-oz. Sheffield design chipproof glass tumblers.

The Prior Tire Company has been serving Atlanta motorists for fifteen years. Each year our business has increased and developed. And now we have realized our ambitions. To give Atlanta the finest service station in the entire Southeast was a dream which has been many years in developing. When you attend the formal opening today, you will see this dream come true. Our new station is dynamic in design . . . streamlined for speedy service . . . a little bit of the World's Fair brought to Atlanta . . . a rare combination of modern beauty and practical utility.

Designed by the finest engineering talent in America, erected on a plot of 30,000 square feet, by Atlanta labor, the station has been six months in the building and represents a tremendous investment. It is complete in every sense of the word and designed to render perfect one-stop service. Everything is brand-new. Our equipment not only represents the latest developments in this field, but, in addition, forecasts tomorrow's trend.

But more important than buildings and equipment are the men who serve you here. You will find them courteous and efficient—each an expert in his line.

You are invited to join the gala celebration today. Come for your gift. Come in and look around. Discover what Super-Service really means in the Showplace of the South Where Service Is a Science.

The older officer was running toward him, gun in hand. Turning quickly, he fired at the second officer until the older man's casual voice brought him to his senses with the quiet command: "Put down the gun;

son, and hold up your hands." In jail the next day, the young man said to a newspaper reporter: "I got so mad I didn't know what I was doing." A trivial offense-a prank-had grown into the most dreadful o

crimes because of temper. Then he pointed to a stack of letters as tall as a fireman's boot over in the corner of the room and said my application would be placed on the file. One infant is born with a "sweet disposition" and one is born with an atavistic capacity for rage.

If this capacity for rage is permitted to develop into a habit, the

plication would be placed on the file.

I am a rotten salesman anyway.

The first time I applied for a job I said to the druggist, "You don't happen to want an errand boy, do you?" and he said, "no."

Henry said he would talk it over with Homer Cummings and Sanford Bates, the head man of the prison department, and let me know in the morning, but I have head that one before myself. child begins life with a handicap that invites disaster. It is a handicap easy to avoid, When a child discovers that a display of temper will win whatever it desires, it has a tantrum whenever its will is crossed. That is not an

evidence of evil, but of intelligence. Adults would adopt the same method if it worked as well for them. But when a mere infant learns that a show of temper is always un-

profitable and unfailingly expensive, it not only quits showing temper but in time loses the capacity to develop it.

The boy who has an "uncontrollable temper" has learned, perhaps without realizing it, that rage will overcome his fear. In that particular, temper is a useful servant in a primitive environment. But it is also a brutal master, for it takes away the ability to think and makes its helpless

for Al Capone, Bailey, Kelly, Karpis and the rest of the boys on the island off San Francisco there will be a bowl from the let-'em-eat-cake division of the prison reform element about unnecessary brutality, tending to the world embittered against society. There may be something to that, but I still think it would be a helpful thing to let the bad kids of the country know all about the monotony and the smells which constitute the life of the captured hoodlums, year after deadly year. And, as Henry suggests, it would be a good piece for the papers.

Before I left the department I called at Edgar Hoover's office and was shown through his big plant—a tour obviously formulated to impress people with the all-seeing quality of the eye that never sleeps, which put me in mind of a visit to a model dairy or a Ford plant.

Well, Hoover is now in a position to clear out and collect a fortune whenever he wants to. Most big-name detectives, when they quit the government service or the New York police department start private agencies and permit service and surface of such ingredients as peanut oil, soya bean oil, palm oil, coccoanut oil, coccoanut oil, soya bean oil, palm oil, coccoanut oil, soya bean oil, palm oil, coccoanut oil, coccoanut oil, coccoanut oil, soya bean oil, palm oil, coccoanut oil, coccoanut oil, soya bean oil, palm oil, coccoanut oil, cocco department, start private agencies and some of them write their memoirs for a few dollars. But Hoover, with his ballyhoo value, can get rich in the movies as technical adviser and nommovies as technical adviser and light-inal author in G-man productions and possibly as an actor, although he isn't very pretty. Moreover, should he leave them laughing when he says goodby he should be able to write his goodby he should be able to write his own ticket for the syndicate, magazine and book rights to his story.

So that is the story of how I didn't go to Aleatraz. It was only a long shot, anyway.

FEINTING WASHINGTON, June 1.—The mystifying Roosevelt technique on the tax bill is not essentially different from his established method. This big fight in the senate is more of a sparring contest with soft gloves than the brawl that it appears to be.

There is no doubt about the sincerity of President Roosevelt's sparring partners. They really believe even his modified house corporation tax plan is foolish and are trying to smash it. But at the same time they also know the heavyweight champ is merely practicing feinting with them.

That such a welcome should have been accorded to a noble ship which, although through no fault of its own, had nevertheless failed of its most spectacular purpose, the recapture for Britain of the prized blue ribbon of speed supremacy led one of New York's newspapers to observe that "it

York's newspapers to observe that "it is hard to imagine how the greeting could have been more ecstatic had she shattered every record on her maiden voyage."

"Ecstatic Reception."

No doubt the description by an inland writer of the reception of a ship, however splendid, as "ecstatic" would be received by his readers with lifted eyebrows—but certainly the passage reported in the news story of one of New York's consercative papers correctly tells the story of what happened along the waterfront of the world's greatest city today as a roaring, thrilling and forever rememberable welcome was extended to a work of man and science that is so stupendous in its conception and size as to be almost unbelievable. She must be seen to be appreciated—and even then the eyes tell a story the brain finds it difficult to believe. Picture a boat so tall out of the water that to those on her top deck motor launches far below on the water appear like toy boats operated by tiny figures. Lying at her berth, upperdecks of the Queen Mary are on the level of the fifth and sixth floors of buildings across from the docks. The vistas down her hallways are more than two blocks long. Her main dining room is larger, according to report, than the dining room of any hotel in America; her dancing, lounging, reading and other entertainment rooms equal in luxury and comfort the same offerings of either the finest of homes or hotels.

"Remarkably Vibrationless."

It is difficult to believe that such a huge, comfortable and remarkably vibrationless and quiet ship could be driven through the water at a rate of 35 knots an hour—and yet that is what the Queen Mary accomplished during her four and a half days from Cherbourg to Ambrose light off New York hārbor.

The Queen, as the great ship became known to her nearly 2,000 pass sengers, can capture the blue ribbon at any time her commanding officers desire—she would have done so this time except for the ten hours and a half of fog that lengthened her crossing time by at least five hours. At that she missed the mark less than an hour.

And behind all of her remarkable traveling was the unquestioned fact that the engines were never really let out and that she came to the tapa "standing up" to make use of an illustrative phrase of the cinder track.

America has a right to feel genuine pride in the fact that the director of the Clyde shipyards, at which the Queen Mary was built, is American born and educated and that he married a southern girl from Chattanooga, and furthermore that another American, a distinguished New Yorker, was responsible for the blending of architectural designs in the upper deck, staterooms and the gorgeous public rooms into a whole of striking charm.

Tire-Changing Business Too Good—Cause Found MNIMUM WAGE LAW Tire-Changing Business

Atlanta yesterday afternoon lost the services of one of its most enterprising businessmen—without regret—when Patrolman W. D. Nash arrested Sam Reynolds, 19, negro, of a Houston street address, at Central avenue and Wall street.

Sam had been doing a small business in the city shining automobiles during the absence of their owners and then collecting a dime or so—usually—when they returned. But Sam evidently read some books on finance and probably took a correspondence course in commerce. At any rate, he conceived the idea of placing shiny, new heavy-duty tacks under the tires of parked automobiles, witnesses told Officer Nash, and even scattered a few in likely places about the street. Changing tires at 25 or 50 cents each beat shining cars at a dime a copy.

But witnesses got ahead of his customer and will appear in recorder's court at 10:30 o'clock this morning to testify against Sam when he answers charges of "dis-orderly conduct, scattering tacks in the street."

Republicans in Race.

Democratic nomination has been partamenum to election in Florida for many years but the republicans have a candidate for Governor and for three of the five congressional positions. Democrats and republicans will meet in the November general election.

A special election will be held later, probably in September, to name a democratic nominee for the unexpired United States senate term of the late Park Trammell. Scott M. Loftin, of Jacksonville, is serving by appointment of Governor Dave Sholtz until the office is filled at the November general election.

President, First National Bank

This is the third of a series of messages from Atlanta citizens prominent in business and civic affairs who will cite their views and opinions on life insurance. This series will be followed with interest by many who appreciate the sound viewpoints of successful men. Watch for those to follow.

With sixty-three million policyholders and a hundred and one billion dollars' worth of insurance in force, life insurance has become one of the most powerful factors in the economic life of the nation. Business is stimulated and stabilized through its influence. It causes individuals to save and frequently enables business to avoid liquidation. It puts money into circulation through the settlement of estates. The investments by life insurance companies form the mainstay of some of the country's most useful and indispensable enterprises.

But I like to think of what life insurance means to the individual, its great human values, wherein it provides protection for fireside and family-a refuge of security for widows and orphans, assurance of future welfare to millions of beneficiaries. These benefits are so positive that investment in life insurance becomes a duty, and provision for it as a necessity ought to be included in every family budget, just as provision is made for clothes, food and shelter.

I have never known anyone who regreted buying life insurance.

"Bring me a little water." said Blackie to the waiter. Mat, Blackie's chief singer, was half way through "Dapper Dan" when a very drunk man in expensive evening clothes stood up at a table near that occupied by the Forrestalls, and waving unsteadily, said in a penetrating voice that carried over the orchestra music:

"I say, old man, I hate to mention it, but your singing is awful."

The singer continued, but his eyes began to roll around the room in search of the bouncer. "I don't like to press the matter, old boy, and I regret to repeat myself, but your singing is awful! You probably think I'm wrong about this—" He stopped as he felt the hand of Babe, the bouncer, under his arm propelling him to the door. "I just wanted to tell my friend—"

Some persons do their best work while they are young, but others do it in middle life or even in old age.

Joseph N. Niepce started tests with sunlight pictures when he was 48 years old, and years later made what was "probably the first picture ever these words:"

Niepce.

Cameras of one kind or another were used long before the time of Niepce, who lived a little more than a century who lived a little more than a century ago, but not for making lasting pictures. Niepce was working to obtain images which would stay—not vanish away when the curtain of a darkened room was lifted. During his trials he sometimes used a camera made from a cigar box, with an opening to admit sunlight. In the year 1816 Niepce told of one of his trials in a letter to his

"The plate can be used in the camera as soon as the varnish is dry. Even after it has been exposed (to rays of light coming in the camera) long enough, the future picture cannot be seen. The next thing to do—to bring out the hidden picture is to use a solvent made of ten parts of white petroleum oil, and one part of oil of lavender. The plate is plunged in this liquid and then the person looking at it begins to see the picture, slowly showing its form. Then the plate, is lifted out and drained and well washed with water."

Niepce began to work on sunlight pictures about 11 years after Wedgwod and Davy made outline prints of leaves and other objects. He learned secrets of picture-making which had not been known before, but his art was not given to the world until after it was made better by another Frenchman, of whom we shall speak to-

EMORY HOSPITAL SETS TOTAL PATIENT RECORD

4,601 Treated, Topping 1929 Mark; Improvements Cited in Report.

Emory University hospital established a new record during the fiscal year

ed a new record during the fiscal year ending May 15 for the number of patients treated, with 4,601 patients admitted during that time in comparison to 4,497 in 1929, the previous record year; it was revealed last night at the hospital staff meeting.

The report, presented by Robert S. Hudgens, assistant superintendent, attributed the increase in the number of cases received at the hospital to recent improvements in facilities, particularly the installation of new shock-proof X-ray equipment comparable to the nation's best and costing approximately \$15,000.

Other improvements cited in securing more patients were the modernization of hospital rooms, the furnishing of 30 deluxe rooms and reduction of noise to a minimum.

Included in the patients of the past

Included in the patients of the past fiscal year were residents of 25 states, one foreign country and 127 Georgia counties.

Dr. A. E. Hauck, Emory interneduring the past year, will be resident physician for the ensuing year, succeeding Dr. Karl Hanson, Hudgens announced.

Sensational
SALES CIRCUS OFFER

AN ELECTRIC RANGE OR WATER HEATER ON

60 DAYS TRIAL!

Spotlighted under the Big Top in our Colossal Circus of Sensational Values, the remarkable twin act of the Electric Range and Water Heater stands supreme, unchallenged and unparalleled. Time and time again we have said that the Electric Range is years ahead of all other cooking methods. Even if it had not reached its present mechanical perfection, its NATURAL superiorities would make it so.

Flame-free electric heat, accurately controlled, cooks with little or no water. No super-abundance of water is needed to prevent burning and scorching, as in cooking with flaming fuels. On the Electric Range, vegetables and meats are cooked in their own juices in live steam --- not in boiling water. Minerals and vitamins are kept in the foods---not cooked out and thrown away. This is truly Health Cookery! Spotlessly clean, electric heat cooks foods as fast as they can be cooked without losing their healthful elements and finer taste and there are many other exclusive advantages.

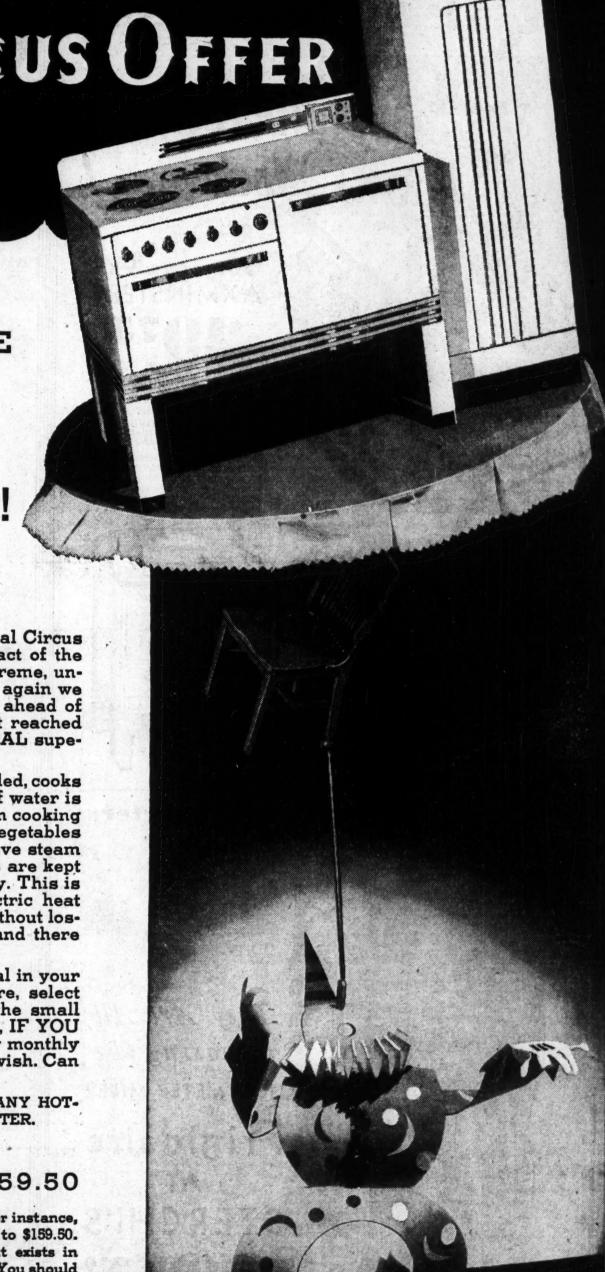

These are not idle or "loose" claims! A trial in your own home will prove them. Come to our store, select any Hotpoint or Westinghouse Range. Pay the small down payment. Use the range 60 days. Then, IF YOU ARE ENTIRELY SATISFIED, begin the low monthly payments over a period of 36 months, if you wish. Can we say more?

the game know, is a very impor-

tant position. To Sally's knowledge, Jacque-line is the first Washington Seminary student to receive the highest award at the North Avenue school. Which is just another way of saying that when this young person first entered high school she enrolled at the seminary following the footsteps of her two older sisters, Mrs. Ed-mond Rudesell, of Sparta, the former Modena McPherson, and Mrs. Robert H. McDougall, the former Maurine McPherson, whose splendid records at the Peachtree road school are for-ever recalled. However, what was the seminary's loss was the North Avenue Presbyterian school's gain, for after her freshman year, Jacqueline entered the latter in-stitution from which she will receive her diploma this evening.

Jacqueline is a tall stately blonde with blue eyes, and yester-day her parents, Mr. and Mrs. N. C. McPherson Sr., her afore-mentioned sisters and her brother, H. H. The 27 seniors will be presented their diplomas at graduating exercises this evening to be held at 8:15 o'clock at the Atlanta Woman's Club.

ONCE again Sally delves into her files and finds June brides and tradition gaining the center of the social spotfight. Today's bride, Betty Stan-ton, who will marry Alonzo Nor-ris, has adhered to the age-old custom of wearing something old, something new, something borrowed and something blue. Of course her lovely wedding dress will be new, but her exquisite lace veil is borrowed from Mrs. Linton Buchanan, who as Margaret Moss became a bride one year ago tomorrow. And, incidentally, the latter will act as matron of honor for Betty today.

Betty, like so many girls, has one garment in her trousseau which is her favorite and in this case it is a handsome satin slip which she will wear. The blue will be forget-me-nots, which will form a delicate spray in her bridal bouquet. Betty's magnificent diamond engagement ring is stone which belonged to her future mother-in-law, Mrs. A. World's Champion Player and Great Analyst.

HAIRLINE DOUBLE. One of the most humiliating expe riences that can befall a contract player is to defeat an adverse con-

tract four, five, or even six tricks undoubled! ract four, five, or even an extended undoubled!

Yet, strangely enough, that very thing happens even to experts from time to time. The cards may be so divided between the two defenders that there is no accurate way for either to foretell that the cantract can be defeated at all, let alone by a staggering number of tricks. But in order to anticipate such an eventuality it is sound bridge to double many contracts on a "hairline" basis, using the previous bidding, plus one's own distribution, as the only available yardstick. Consider how grieved East and West would have been had they allowed the four spade contract, on the hand shown below, to go undoubled.

East, dealer. Neither side vulnerable. NORTH 42 9754 ♦962 4 Q 10 9 6 5 2 EAST WEST AK 653 .J 10 8 5 4 8 *** SOUTH AAQJ109 ♥KQJ8 ♦KQ7

The bidding: South West East 1 heart Double 2 dimds. 4 spades Double Pass. Pass

South's bid of four spades was, of course, much too aggressive on a five-card suit, regardless of the great strength of his nand. Having shown partner a good hand by his take-out double, there was no necessity—and great danger-in leaping to game all

West, however, was in somewhat of a dilemma over the four spade bid. He hardly could know that South was he hardly could know that South was bidding so strongly on a compara-tively short suit and therefore, while he decided to double largely on the basis of his singleton in partner's bid, he did not feel a bit happy about the double, and breathed much more free-ly when a redouble failed to material-

What a slaughter ensued! West opened the heart deuce. East won the ace and laid down the ace of diamonds. A second heart lead was ruffed by West, who returned a diamond. East ruffed and led another heart. West ruffed and led the third of diamonds for partner to ruff. Planetary Interpretations.

Below are planetary indications, according to the rules of astrology, one of which may apply to your forecast. Every day these interesting interpretations will be published, descriptive of the influence of the planets at the time of your birth. Your astrological forecast includes a Sun chart, and planetary interpretations, designated by numbers on your Sun chart. Watch carefully day by day for your numbers.

The unkindest cut of all followed; a fifth round of hearts establishing West's lone king of trumps as a good trick!

Thus, declarer was actually held to ready to grasp the good opportunities that come to you at this time, as you are ander the round of diamonds for partner to ruff. HYDE PARK, N. Y., Sunday.—Some one sent me a cartoon not long ago of a gentleman sitting at the telephone in a newspaper office, looking extremely wild because I was reporting that nothing of interest had happened for my column that day. I doubt if the cartoonist knew that 1 am often looking forward to a day when I will do nothing, and therefore have nothing to chronicle as far as comings and goings are concerned. It will be interesting to see whether one's mind stagnates as well as one's body. This Memorial Day and Sunday in the country have had some activity. The skies were gray and it was more like autumn than summer, but that made it all the pleasanter for exercise. After going on a hike I had a glimpse of my grandchildren. They are delighted at the prospect of having the horses and their own dogs here by the end of school when I sat for some time with my mother-in-law, who is going to sit up tomorrow and insists that the next day she is going to dinner down-

stairs in a wheel-chair. The doctor tells her she is a most cheerful patient and is taking this whole thing very well.

She, with the philosophy which comes from her early bringing up, I am sure, insists that she is quite comfortable and that she has her lovely trees to look at, and an oriole, which came twice yesterday and perched on the branch of a tree outside her window just so she could have a good look at him. She told me once that in her youth her father used to say when they

complained, "All weather is good weather." When they said they had not had time to do a centain thing, one of her aunts always remarked, "You had all the time there was." A good basis for philosophy in later I read deywood Broun's column on tolerance with joy. Nothing is more irritating than someone who agrees with everyone he happens to be thrown with. Once that was called "being all things to all men," but I think some of us have found that you cannot be all things to all

So, more power to you, Mr. Broun, may you always be sure of what you think and continue to be as courageous in expressing it. My trouble is that I am not always sure of what I think. A peaceful Sunday in Hyde Park, and back to Washington on the midnight.

Friendly Counsel

By CAROLINE CHATFIELD. Problems of general interest submit-ted by readers will be discussed in this column Correspondence invited Your name held in confidence Write Miss Chatfield, care The Atlants Constitution

Dear Miss Chatfield:

Nine years ago I married a widow with one child. She is a good wife but I disapprove of the way she is handling her daughter. Although the girl is only 17 she is allowed to have company in the sitting room with the doors closed (while my wife sleeps peacefully) and on many occasions she goes out with a date and stays until 12 or 1 o'clock. If I correct her she is disrespectful to me and when there is a disagreement between us my wife always thinks I am in the wrong and she registers her disapproval by going out of our room and staying with her daughter for a week at a time. I love my wife and my home but things can't last at this rate. I feel mighty helpless and need wise counsel. Dear Miss Chatfield:

Friend, if you can't control your wife nobody can help you except to call your attention to the fact that if call your attention to the fact that if you put up the money for the establishment, support the mother and daughter, you are in position to demand and get courteous treatment at the hands of both of them; and also in position to tell your wife that as long as she lives with you she must make her daughter conform to your ideas of decency and decorum. She is not showing any indement in permitideas of decency and decorum. She is not showing any judgment in permitting a 17-year-old daughter to run loose; keeping dates behind closed-doors and staying out until the wee small hours of morning. When, and if, the girl comes to grief, though it will be your responsibility to come to the rescue.

Instead of upbraiding and repri-manding the daughter who is dis-respectful to you, yet your sugges-tions and corrections come through your wife. Only in this way can there be any peace in the home or any pleasant relationship between any of you. When matters get into such a snarl as they are now in, such a snarl as they are now in, it is mighty difficult to straighten them out. But the power of the purse remains the mighty power with dependent women. Both of them will hear and heed the talk CAROLINE CHATFIELD.

Mann To Join Crackers, Confer With Moore About Hamel

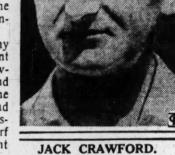

It proved to be very difficult indeed for our citizens to work up any patriotic fervor about the Davis cup tennis matches. In fact, when word came yesterday that Jack Crawford had

come from behind to eliminate Wilmer Allison and thereby eliminate the Davis cup team from the competition, most of the Atlanta citizens said, "That's just dandy."

It was impossible to feel the team represented the United States. It represented the Lawn Tennis Association, which happens to be anathema to most of the people of the United States who are at all interested in tennis.

There isn't a doubt in my mind but that Bryan Grant would have taken Jack Crawford, reported as being fat and slower than usual, over the jumps. He would have had Mr. Crawford's fine old Australian tongue lapping the turf and would have run him right into the ground.

The U. S. L. T. A. hasn't been able to see beyond its collective nose in all its career. It stews about tennis players writing pieces for the paper and yet lets them draw "expenses" for any little tournament it chooses to sanction. It permits its stars to Ioll in luxury for about 10 or 12 months out of each year on expense money and yet rates them as amateurs who cannot indorse a racket or a shoe

It passed up Bryan Grant simply because Wilmer Allison had been rated ahead of him. The committee must have known Grant could beat Allison. He beat him on clay and he was even sets with him on turf. And the committee failed to call for the last set to be played. They couldn't take the risk.

And down our way the general idea was the Lawn Tennis Association lost to Australia—and that the United States didn't have a team in the competition at all. Which was just about correct.

THE TENNIS TABLE.

This land of ours took the Davis cup from Australia in 1920 and lost it to France in 1927.

Yesterday's defeat was the first time we have failed to emerge from the zone trials, the defeat being all the more bitter thereby. Bitter, that is, to the great minds of the Lawn Tennis Association. Most everyone else thought it served them jolly well right.

It was our two Bills, Big Bill Tilden and Little Bill John-

ston, who won the cup from Australia. And it was still our two Bills who tried to hold the fort in Rene Lacoste beat both our Bills in singles and Henri Cochet trimmed Little Bill. Tilden won a singles match from Cochet, and he and Hunter won the doubles. But the cup was

Since that time, the United States six times has played in the finals. France defended the cup for five years, meeting the United States team in four of the finals. Great Britain won from France and twice has beat our team in the finals.

But our tennis players have been getting weaker and fewer. And this year we had the spectacle of the nation's second best tennis player being left off the Davis cup team.

THE INTERNATIONAL GAME.

Tennis is the international game. It is played in more countries than basketball and golf, the other two sports with an international rating.

Every civilized nation in the world had them and at least one with little civilization, Ethiopia, had some at the capital city.

Four nations have dominated the game—the United States, England (British Isles), Australia and France. The Davis cup was offered as a prize in 1900. The United States has won the cup ten times and leads in victories. Great

Britain has won eight times and Australia and France have six Twice have other countries gone to the finals. In 1921 Japan was there and lost to the United States. In 1904, Bel-

gium was swept out by England. The game was brought to the United States by a young lady who came back from a Bermuda cruise with

the net, rackets and other equipment. Which stamped it as a 'lady-like" game in this country, blight from which it did not recover for years.

PROFESSIONAL BASEBALL.

There is one thing that may be said for professional base-

on the line for all the neighbors to see. The Atlanta club was unfortunate enough to have a wash flapping from the line yesterday. Eddie Moore, manager of the ball club, reported that Peck Hamel had been suspended on his, Moore's, charges that Hamel had violated the training Cavan, Bucker and Chambers; Obepta and Manley. rules of the club and was not in condition to play in Sunday's

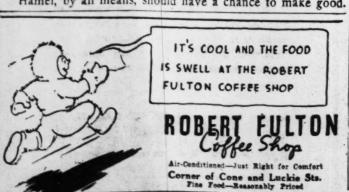

double-header at Chattanooga. All of which is most unfortunate. . The Atlanta club has but one course open. It can, and should, give Peck

Hamel a chance to come back for the club. Should he again violate the rules of the club, there can be but one recourse, and that is to trade or sell Hamel, a very valuable player, and get another man in his place.

Baseball is a peculiar business, being a quasi-public business, entirely dependent on public good will for its success. It cannot overlook as many things as another business might because Grinnell the performance of its employes belongs to the public.

Baseball owners can take no chances. An entire

season may be wrecked by no more serious an event than the flouting of rules by one player. All of which explains why the club must act. Hamel, by all means, should have a chance to make good.

Von Cramm Launches Devastating Attack To Topple Star.

PARIS, June 1.—(P)—Firing a devastating attack that observing critics pronounced as almost perfect, Baron Gottfriend Von Cramm gave Germany a clean sweep of singles titles in the French hard court tennis championships today by toppling England's great Fred Perry, 6-0, 2-6, 6-2.

The victory, first for the German baron in four attempts against the recognized No. 1 star in the tennis world, gave Germany its red letter day of all tennis. Before Baron Von Cramm took the court, Mme. Hilda Krahwinkel Sperling, German-born star now living in Denmark, won the women's title zor the fatherland by defeating Mme. Rene Mithieu, of France in straight sets, 6-3, 6-4.

Perry opened the match with his favorite stalling and loafing tactics but before he could get warmed up, Von Cramm had raced away to a 4-0 game lead. Figuring it was too late to waste motion on that set, Perry quit trying, the German winning the opener

Wealthy Owner Says Return of Injured Aces To Change Race.

By Jack Cuddy.

NEW YORK, June 1 .- (UP)-'Now-watch us go after that pennant." said Tom Yawkey, the husky, moon-faced young multimillionaire who owns Boston's Red Sox.

"At last we'll have all of our crip-ples back in the lineup this week— and we'll start going right to town," continued the biggest spendthrift base-ball ever knew. the 33-year-old lum-ber prince. who has invested more than \$3,500,000 in the Fenway Fusil-

Yawke was referring to the fact that Manager-Shortstop Joe Cronin, Pitcher Lefty Grove, Outfielder Heine Manush and Catcher Rick Ferrell would be back in the game again, having recovered from assorted injuries.

Thus the Bosox would be at full strength on the field for the first time since April 16, two days after the season opened.

The referring to the fact that action.

Mann said he might change his mind and join the club at Knoxville, but present plans call for him to go to Nashville for the series there.

Hamel was indefinitely suspended for infraction of training rules at Chattanooga and sent home by Manager Moore, who put himself in the lineup.

"YOUNG MONEYBAGS."

Robust, brown-haired young Yaw-key spoke with mingled elation and exasperation during the chat in his downtown offices. He was elated because four ace players would be performing again and he was exasperated because many people in baseball are still skeptical about the ability of his Red Sox to cop the American league Crackers losing the strength of the companies him the dumps yesterday over the Crackers losing the companies him the dumps yesterday over the Crackers losing the companies him the dumps yesterday over the Crackers losing the companies him the dumps yesterday over the Crackers losing the companies him the dumps yesterday over the companies him the dumps him the dum Red Sox to cop the American league flag—despite his unprecedented expen-ditures for top-flight athletes. He was quite sure that the Red Sox would be on an even footing or ahead o the New Yorkers, were it not for the injury jinx which had hampered the Sox ef-ficiency.

jinx which had hampered the Sox efficiency.

And although Tom did not come right out and say it, you could tell by his attitude that he figured the skeptics slightly goofy. It was quite evident he thought his outfit capable of replacing the Tigers as American league champions this year—with an even break in luck. Yawkey believes he has a good club—as good as any in the circuit, and he is not refuctant in patting his boys on the back.

Budge Conquers Quist; Grant Sails With Team for England.

PHILADELPHIA, June 1 .- (AP)-The Germantown Cricket Club's turf courts, the setting for the United States' loss of the Davis cup nine years ago to France, again today was the burial ground for Uncle Sam's hopes in the 1936 interestional ten-

For the first time since the cup play was split into zone warfare, the United States lost a series on her own soil as a couple of phlegmatic and determined Australians, Jack Crawford and Adrian Quist, completed a 3-to-2 victory over Wilmer Allison, Don Budge and Gene Mako in the final round of the American zone.

The gray-haired Crawford, the man who experts doubted could go five sets and still retain his rhythmic five sets and still retain his rhythmic form, clinched the series and a berth for Australia in the inter-zone final at Wimbledon, England, in July with a business-like five-set victory over the luckless Allison, the American champion.

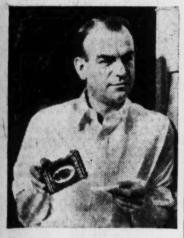

Allison lived up to the reputation of the little girl with the long curls—either very, very good or very, very sour. And his game soured.

Crawford, who was baffling, particularly to American cup leaders, by virtue of his ability to grow stronger with competition, set down Allison at 4-6, 6-3, 4-6, 6-2, 6-2 to give the Anzacs their third and decisive triumph. On the opening day, Saturday, Quist took the measure of Allison in four sets, while Crawford made a grand comeback but lost to Budge. In the doubles yesterday, Crawford and Quist spotted Budge and Mako a two-set, 4-1 lead and then beat the Californians.

With the series in the bag, the fourth and final singles encounter between Budge and Quist amounted to an exhibition. Budge, who was all business in order to keep his singles record in the series clean, smothered the bronzed and athletic Quist in straight sets, 6-2, 6-2, 6-4.

Although badly disappointed over the result of the series, Walter Mervill Hall, president of the United States Lawn Tennis Association, announced immediately afterward that the three American cupsters in addition to Bryan (Bitsy) Grant, of Atlanta, followed by Johnny Goodman, Omaha: Walter Emery, 1925 national form of the United States Lawn Tennis Association, announced immediately afterward that the three American cupsters in addition to Bryan (Bitsy) Grant, of Atlanta Merville and the control of the Carafford and the contro

BILL HALLAHAN FROM CARDINALS

Dressen To Use Veteran Left-Hander as Starting Hurler.

CINCINNATI, June 1.—(A)—The Cincinnati Reds, battling for a place in the first division of the National league, bought William "Wild Bill" Hallahan from the St. Louis Cardinals today to bolster a shaky pitching staff.

Hallahan from the St. Louis Cardinals today to bolster a shaky pitching staff.

The veteran left-hander, who has won 93 games and lost 68 during an eight-year career in the major leagues. Was purchased for an undisclosed amount of cash, President Powell Crosley Jr. announced.

He will be used as a starting pitcher, forsaking the relief role to which Manager Frankie Frisch, of the Cardinals, had assigned him recently.

General Manager Larry S. MacPhall, who negotiated the deal in a long-distance telephone conversation with Vice President Branch Rickey, predicted Hallahan would win his share of games for the Reds and give good service for four or five years.

MacPhail declined to say whether any of the Reds' mound force of six right-handers and three left-handers would be sold or released. The decision, he said, would be made by Manager Charles Dressen.

At present, the Reds have only one pitcher with a winning percentage for the season. Al Hollingsworth. 26-year-old southpaw, has won six of the Reds' 19 victories and lost two of their 23 losses. Paul Derringer, with four victories and five defeats, and Gene Schott. with three victories and Gene Schott. with three victories and four defeats, are the only other pitchers who have turned in more than a single victory this season.

Hallahan, 31 years old, is a vetter.

son.

Hallahan, 31 years old, is a veteran of three World Series. In 1929, when he joined the Cardinals, he ranked as the strikeout king of the league. He aided St. Louis in winning their pennants in 1930 and 1931, blanking the Philadelphia Athletics in one World Series game each season and winning a 5-to-1 victory in addition to relieving Grimes successfully in the ninth inning in the 1931 series.

Hallahan won 15 games and lost eight last season and so far this sea-son has won two and lost two.

Frank Ferst Wins In Ingleside Play

Frank Ferst, one of the greatest defensive halfbacks Tech ever had, finished first in a large field of golfers on the Ingleside Country Club course during the week-end. It was a blind bogey and Frank was the only one on the winning score of 80.

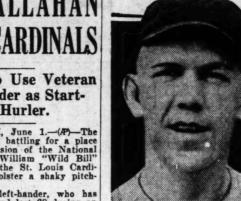

The 80 was not a gross score for Ferst was several strokes lower, but selected a handicap which would give him at least a chance for top prize.

Norman Elsas finished second and the two are the aces of Ingleside's club team for the interclub matches.

National Open Over Trying Baltusrol Course Starts Thursday.

SPRINGFIELD, N. J., June 1 .-(UP).—Because of the premium on ac-curate tee shots and craftsmanship with the irons over the difficult Baltusrol course, Henry Picard, Horton Smith and Gene Sarazen are rated outstanding favorites by practicing contestants to win the United States open golf tourney which starts Thurs-

More than 100 ace linksmen from More than 100 acc linksmen from all sections felt out the course on this warm, sunshiny day, and as they trickled into the "19th hole" for refreshments in the rambling, ivy-clustered, red brick clubhouse, they gave their impressions of the 6,598-yard test and their opinions of fikely winners.

Picard, of Hershey, Pa., and Smith, of Oak Park, Ill., commanded most respect among the contestants—although virtually every entrant who ventured a selection, modified his remarks by saying, "and of course you can't forget Gene Sarazen. He's the greatest money player in the field, and finishes up close to the top more than any of the others."

Picard, 28, although playing in only his third open championship, is rated probably the most consistent performer of all the professionals. He was the second largest money winner along Picard, of Hershey, Pa., and Smith, the second largest money winner along the golden winter trails for the past

Dixisteel will resume its four-game series with Buford's Shoemakers at 4 o'clock this afternoon at Buford. Dixisteel dropped the first of the four games last Tuesday.

The remaining two games will be played Wednesday and Thursuay afternoons on Glenn field, home of the Dixisteel nine.

Buford has won 31, lost 2 and tied 1 game thus far.

Smith shares favoritism among is colleagues because he is known to by at the peak of his game, and because a lie or at the peak of his game, and because the field up to the last round.

Jack Doyle's quotations make Picard and Smith joint favorites at 8-1. Doyle has Sarazen among the second choice men at 10-1.

After testing the course, most of the practicing golfers agreed that only those who can get off accurate tee shots on the first six holes will have a chance to win because a slice or a hook on any one of these holes will send the ball into trees lining the fairway. Moreover, in teeing off on all these first six holes, the shot is against prevailing winds.

THE BETTER TEAM WINS.

GERMANTOWN CRICKET CLUB, PHILADELPHIA, June 1 .- It may be England-it may be Germany-it may be Australia or it may be France, as far as the Davis cup goes for 1936. But it won't be the United States by a decisive margin. As Big Big Tilden said some weeks ago—"Australia is the better team and should win." Australia was the better team and did win, and in the two big matches Australia had to come from well behind to move on across the Atlantic.

Wilmer Allison got the jump at two sets to one against Jack Crawford, but from that point on, the cool, graceful Australian lifted his game to a much faster pitch and pace and the hard-fighting Texan never had a chance. Crawford, with his smooth, unhurried, stylish stroking, had more down the stretch than Allison could handle.

more down the stretch than Allison It was just ten years ago that France lifted the cup from these same Germantown courts and the cup is still a long march away. Who will win it? Big Bill Tilden likes Germany, with Von Cramm. Wilmer Allison figures France has about an even chance against Germany, and there you are. It is almost a certainty that England won't be as good this year as she has been for three years. When you come down to it, Australia won't be any easy picking with Crawford and Quist around—and its strength in doubles. Crawford was erratic here—brilliant but unsteady—but a handy entry in any pinch—a hard fellow to shake loose. His calmness and coolness under fire—his lack of tension at critical spots—is something to see. He may be spotty in the early going, but he is a deadly machine when the crisis arrives.

Poor selling cropped out again today, but there was sufficient buying
both at New Orleans and New York
to prevent price recessions in July
where the pool operations centered.
July closed at 11.53, compared with
its previous close of 11.53 bid. October gained 3 points to 10.57, December was up 2 points at 10.48 and
January was 2 points higher at 10.48.
The holiday at Liverpool restricted
foreign operations, although considerable price-fixing reportedly for Japanese account developed during the nese account developed during the

NEW YORK, June 1 .- (AP)-The steels, rails and specialties batted out a number of hits in today's stock market event, but late profit-taking opposition kept the scoring down to a small figure.

a small figure.

Pleasing business news, generally provided the stimulus for a morning upturn of fractivns to around 2 points. Volume failed to appear on the advance, however, and, in the final hour, extreme advances were reduced substantially.

That steel production in June, at least, will bear out the forecasts of leaders in this industry was indicated by the official estimate that the current week's mill operations are at 68.2 per cent of capacity against 67.9 per cent last week.

cated by the official estimate that the current week's mill operations are at 68.2 per cent of capacity against 67.9 per cent last week.

In view of the boost in prices of finished steel products, to go into effect at the beginning of the next quarter, heavy buying is expected this month by consumers who wish to get under the wire before the start of the revised schedules.

Steel equitic early reflected the im-

of the revised schedules.

Steel equitic early reflected the improvement in this major industrial barometer. Carrier stocks responded to hopes that the lower passenger fares, inaugurated today, will bring a sharp increase in travel throughout the country and ultimately give revenues of the principal roads an upward push. Expanding freight-car loadings were also expected to help many of the lines back into the black column.

issues edged up .1 of a point at 62. Transfers totaled 786,240 shares.

Existing obligations of the treasury were virtually neglected but the few buyers that did come into the market had to bid from 2.32ds to 5.42ds above last Friday's closing prices to get the desired issues, and wider advances were registered by the notices constituting a part of the \$2,050,754,000 current financing. Government dealers and the banking fraternity were represented as being generally well pleased with the terms and maturities of the new securities. A good inquiry was reported by leading houses. Corporate bonds also suffered in point of volume of trading by the concentration of interest in the government sector, but prices held to a stendy course. Limited leadership was furnished by the rail group where advances of minor fractions to a point were in the majority and included such issues as Baltimore & Ohio convertible 4 1-2s at 72.7-8, Chesapeake Corp. 5s at 130 1-2, Great Western 4s at 31 3-8, St. Paul 5s at 21 1-8, Illinois Central 4 3-4s at 72 1-2 and "Katy" adjustment 5s at 58 1-4. Foreign bonds did little either way. Cuban 5 1-2s, Italian 7s and Rome 6 1-2s were unchanged. While Polish government 8s lost 15-8 points at 72. The Associated Press average of 10 low-yield corporate bonds advanced .1 of a point to 112.1, the highest average level in five years or longer. The average of other groups used in the compilation were unchanged to .2 of a point lower. Transfers in all bonds totaled \$7.916.000 par value, compared with \$10.083,000 last Friday. Fundamentalists Refused To Quit Seats on Fac- tional Board.	Rases Will Have No More Voice in Conduct of 'Duce's Empire.'
SYRACUSE, N. Y., June 1.—(R)— th only a few scattered negative tes, the 148th assembly of the Pres- terian Church in the United States America, dismissed today the ap- tles of Dr. J. Gresham Machen, of iladelphia, Pa., and six associates m suspension from the ministry. The ministers avowed advocates of fundamentalist doctrine, were sus- ded by the church's lower courts er they refused to resign from the dependent Board of Foreign Mis- nes, created as a rival to the offi- lly recognized group. They appealed to the permanent ju- islo commission, which handed down isions to the assembly affirming ir suspension and ordering the ap- ils dismissed. In addition to Dr. Machen, presi- to of Westminster Theological Sem- try and a former Princeton Theo- ical Seminary professor, the min- ers affected are the Revs. H. Mc- ister Griffiths, Merrill T. MacPher- t. Charles J. Woodbridge, Paul polley and Edwin H. Rian, all of iladelphia, and Carl McIntire, of llingswood, N. J.	ROME, June 1.—(P)—Rases, or native chieftains, were eliminated from the government of Ethiopia except in a consultative capacity today by a comprehensive administrative decree approved by the cabinet. Italian East Africa was divided interior in the consultative colonies. The Ethiopian Coptic church was again brought under the jurisdiction of the Patriarch of Alexandria. The division of Premier Mussolini's "empire," including the colonies of Eritrea and Somaliland, was made in this fashion: Eritrea—Capital, Asmara. Amhara—Capital, Gondar. Galla and Sidamo—Capital, Jimma. Harar—Capital, Harar. Somaliland—Capital, Mogadiscio. A viceroy will rule Ethiopia, with Addis Ababa as the capital. The viceroy will have a consultative councit composed of six Italian resident merchants, farmers and manufacturers and six native chieftains. A cabinet announcement said the division creates five homogeneous or ganisms "ethnically, geographically, historically and politically." In addition to the consultative council, there will be a governor's council made up of leading officials in Easi Africa. The viceroy will be aided it Ethiopia by a vice governor-zenera and the chief of the general staff, who

CONFESSION OBTAINED KIMBERLING IS NAMED JERSEY POLICE HEAD

Negro Returns to Scene, Prison Warden Will Succeed Colonel H. Norman Schwarzokorf.

TRENTON, N. J., June 1.—(P)—
William S. Conklin, press aid to Governor Harold G. Hoffman, announced tonight the Governor had named Colonel Mark O. Kimberling to succeed Colonel H. Norman Schwarzkopf as superintendent of state police.

Conklin made the announcement immediately after the Governor's secretary, William La Gay, carried several appointments to the senate for confirmation. La Gay declined to say what they included and Conklin made the announcement that Colonel Schwarzkopf, who directed the state police investigation of the Lindbergh police investigation of the Lindbergh kidnap-murder, would not be reap-

years in the position, which carries an annual salary of \$9,000, and recently attracted public attention with his development of a sound motion pictures rogues' gallery to supercede the present photographic method of cataloguing criminals.

Colonel Kimberling served 15 colonel Colonel Schwarzer a document Colonel Kimberling served under Colonel Schwarzkopf as a deputy su-perintendent of the state police from 1921 to 1929, when he became direct-ing head of the state reformatory at Rahway. MEXICAN DIVORCE

NOT ACCEPTED IN U. S.

LITTLE ROCK, Ark., June 1.—(P)
The Arkansas supreme court refused today to recognize the validity of a Mexican divorce.

The tribunal affirmed a Pulaskit chancery decree granting a divorce to Mrs. Johnnie May Bethune, of Wynne, and rejected a pleá of Roderick A. Bethune that the decree be set aside on the grounds that the previously had obtained a divorce in Mexico.

The record in the case showed that they were married in 1930, and Bethune went to the state of Morelos, Mexico, a year later, signed power of a ttorney and returned to Bastrop. La., after remaining in Mexico only nine days. He was given a divorce on grounds of incompatibility of temperament.
